2013 ANNUAL REPORT

BOARD OF TRUSTEES

Chair
John C. Mazziotta, MD, PhD, FAAN Los Angeles, California

Vice Chair
Robert C. Griggs, MD, FAAN Rochester, New York

Treasurer
J. Clay Goodman, MD, FAAN Houston, Texas

Secretary
Michael F. Waters, MD, PhD Gainesville, Florida

Trustees
Robin L. Brey, MD, FAAN San Antonio, Texas
Terrence L. Cascino, MD, FAAN Rochester, Minnesota
Ralph Józefowicz, MD, FAAN Rochester, New York
Timothy A. Pedley, MD, FAAN New York, New York
Jeffrey Rosenfeld, MD, PhD, FAAN Fresno, California
Lisa M. Shulman, MD, FAAN Baltimore, Maryland
Bruce Sigsbee, MD, FAAN Union, Maine
A. Gordon Smith, MD, FAAN Salt Lake City, Utah
Austin J. Sumner, MD, FAAN New Orleans, Louisiana
Thomas R. Swift, MD, FAAN Augusta, Georgia

Public Trustee
Kevin P. Goodno, JD Minneapolis, Minnesota

Honorary Trustees
Rich Clifford
Leeza Gibbons
Billy McLaughlin
Thomas Sherak

Executive Director/CEO
Catherine M. Rydell, CAE Minneapolis, Minnesota

Deputy Executive Director
Christine E. Phelps Minneapolis, Minnesota

OUR MISSION

The American Brain Foundation supports vital research and education to discover causes, improved treatments, and cures for brain and other nervous system diseases.

OUR VISION

Cure brain disease.

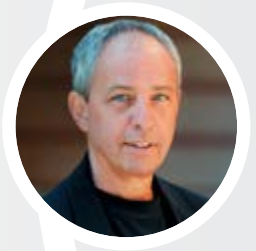
LETTER FROM LEADERSHIP

2O13 was a challenging year for brain research. On the one hand, we were elated by the Obama administration's forceful commitment to scientific investigation through the unparalleled BRAINS Initiative. On the other hand, we suffered the political brinksmanship of the government shutdown in Washington and the severe cuts mandated by the budget sequestration. These reductions deeply affected federal funding for the necessary research to produce new treatments and cures for diseases of the brain and central nervous system. Too many worthy applicants for support from the National Institutes of Health—including many highly talented neurologists and neuroscientists—were turned down.

The prevalence of chronic disorders such as Alzheimer's disease is growing significantly as our population rapidly ages. But the young are not exempt from danger, whether from autism or stroke. We now have much clearer insights to the prevalence of sports concussion and its temporary and lifelong effects on the brain—and the risks shared by a child on a school or community team or a seasoned professional athlete.

This challenging environment makes the work of the American Brain Foundation all the more imperative. Our position to fund research and nurture a new generation of neuroscientists while also partnering with key organizations is instrumental in the fight to cure brain disease. We are not a stopgap measure and cannot make up for the significant cuts to federal support. But we can—we must—make every effort to build and reinforce the neuroscience community so that they can deliver safer and better treatments, and ultimately, cures for brain disease.

We thank the thousands of donors: Neurologists, AAN volunteer leaders, AAN staff, researchers, patients, families, caregivers—and our partners in patient organizations and industry for their generous contributions in support of the mission of the American Brain Foundation. Because brain disease affects 1 in 6 people in our country, everyone has a stake in our success. Please join us.



John C. Mazziotta, MD, PhD, FAAN
Chair

Catherine M. Rydell, CAE

EDUCATION

NEURO FILM FESTIVAL

The Foundation received 85 entries for the 4th Annual Neuro Film Festival®. These brief videos, all under five minutes, were submitted by a range of patients, family, caretakers, physicians, and filmmakers who sought to put a human face on brain disease. Posted on YouTube for the public to watch and vote on, the videos generated 31,498 views. The winning film, "Hope for HumaNS," by neurologist Suzanne Gazda, MD, of San Antonio, TX, introduced the public to a mysterious and fatal neurological disease plaguing the children of northern Uganda. The film documents the opening of a care center which serves as a site for education, research, and much needed respite for the children and their families.

BRAIN HEALTH FAIR

More than 1,300 people in the San Diego area attended this free one-day event held at the Hilton San Diego Bayfront Hotel. People living with neurologic diseases and those wanting to learn about brain health were exposed to demonstrations and educational presentations on research and treatments for diseases such as Alzheimer's, Parkinson's, stroke, multiple sclerosis, and more.

BIKE HELMET GIVEAWAY

Capitalizing on the concern about brain injury and concussion, the Foundation joined the American Academy of Neurology to hand out more than 2,000 bike helmets to the Twin Cities community.

MINNEAPOLIS AQUATENNIAL TORCHLIGHT PARADE

More than 40 volunteers pounded the pavement before 50,000 spectators of this popular summer attraction, encouraging greater public awareness of brain disease and inviting them to pave the way for cures.

EPILEPSY AWARENESS DAY AT DISNEYLAND

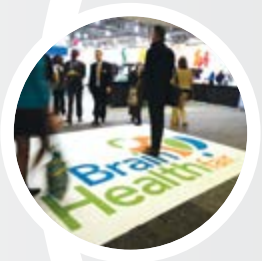
Foundation staff joined more than 1,000 attendees at this event to unite the epilepsy community, to bring epilepsy out of the shadows, and to stomp out the stigma of epilepsy.

"FACES" PROMOTIONAL CAMPAIGN

This powerful advertising campaign gave faces to common brain diseases through real-life stories of people meeting the daily challenges of their disorders.

AMERICAN BRAIN FOUNDATION ENEWSLETTER

The Foundation launched an electronic newsletter, sharing relevant stories and practical information for improving brain health and awareness with over 70,000 subscribers.



RESEARCH

In 2013, the Foundation funded 16 training fellowships for young clinical researchers. These were in addition to the 36 fellows who were conducting research in their previously awarded fellowships.

RICHARD OLNEY, MD, CLINICIAN-SCIENTIST DEVELOPMENT THREE-YEAR AWARD

Cosponsored by the American Brain Foundation and the ALS Association

James Berry, MD, MPH
MASSACHUSETTS GENERAL HOSPITAL, BOSTON, MA
Longitudinal Investigation of Activated Peripheral Blood Monocyte Counts and Gene Expression in Patients with ALS Neurons

JUVENILE NEURONAL CEROID LIPOFUSCINOSIS CLINICAL RESEARCH TRAINING FELLOWSHIP

Cosponsored by the American Brain Foundation and the Beyond Batten Disease Foundation

Joseph Glykys, MD, PhD
MASSACHUSETTS GENERAL HOSPITAL, BOSTON, MA
Characterization of Hyperexcitability and Epileptogenesis in Mice Carrying the Common Juvenile NCL (CLN3) Mutation

CLINICAL RESEARCH TRAINING FELLOWSHIP IN NEUROTOXINS

Funded by the Allergan Foundation

Nada Hindiyeh, MD
UCI MEDICAL CENTER, ORANGE, CA
Validating a Diagnostic Tool for Chronic Migraine

Veronica Bruno, MD
UNIVERSITY OF TORONTO, TORONTO, ONTARIO
A Study of the Utility of Botulinum Toxin Type A in the Treatment of Pain in Advanced Parkinson's Disease and Freezing of Gait in Parkinson's Disease

PRACTICE RESEARCH TRAINING FELLOWSHIP

Cosponsored by the American Brain Foundation and the American Academy of Neurology

Michelle Kvalsund, DO, MS
VANDERBILT UNIVERSITY MEDICAL CENTER, NASHVILLE, TN
Evaluation of HIV-associated Distal Symmetric Polyneuropathy in Zambia

CLINICAL RESEARCH TRAINING FELLOWSHIP

Cosponsored by the American Brain Foundation, the American Academy of Neurology, and Teva CNS

Brian Wainger, MD, PhD
MASSACHUSETTS GENERAL HOSPITAL, BOSTON, MA
Blocking Hyperexcitability and Improving Survival in ALS Motor Neurons

April Levin, MD
BOSTON CHILDREN'S HOSPITAL, BROOKLINE, MA
Identifying Early Biomarkers for Autism Using EEG Connectivity

Jasmeer Chatwal, MD, PhD
MASSACHUSETTS GENERAL HOSPITAL, CAMBRIDGE, MA
Functional Network Disruption in Aging, Autosomal Dominant, and Late-onset Alzheimer's Disease

Michael Wilson, MD
BOSTON UNIVERSITY SCHOOL OF MEDICINE, BOSTON, MA
Multimodal Imaging of Antibody-mediated Therapy for Japanese Encephalitis Virus

Michael Fox, MD, PhD
MASSACHUSETTS GENERAL HOSPITAL, BROOKLINE, MA
Use of Resting-state Networks to Predict the Ideal Stimulation Sites for Transcranial Magnetic Stimulation (TMS) and Deep Brain Stimulation (DBS)

Michael Ward, MD, PhD
UNIVERSITY OF CALIFORNIA-SAN FRANCISCO, SAN FRANCISCO, CA
Investigation of Nuclear Trafficking Dysfunction in an Ocular Mouse Model of Frontotemporal Lobar Dementia

Rizwan Akhtar, MD, PhD
UNIVERSITY OF PENNSYLVANIA, PHILADELPHIA, PA
Investigation of Auto-antibodies to Alpha-synuclein as Novel Biomarkers in Parkinson's Disease

Paul George, MSE, MD, PhD
STANFORD UNIVERSITY, STANFORD, CA
A Tissue Engineering Approach to Electrically Stimulate Neural Stem Cells to Enhance Stroke Recovery

AMERICAN HEART ASSOCIATION/AMERICAN STROKE ASSOCIATION/AMERICAN BRAIN FOUNDATION LAWRENCE M. BRASS, MD, STROKE RESEARCH FELLOWSHIP

Cosponsored by the American Brain Foundation, American Heart Association, and American Stroke Association

Clotilde Balucani, MD

STATE UNIVERSITY OF NEW YORK DOWNSTATE MEDICAL CENTER, BROOKLYN, NY

The Rapid Vascular Ultrasound Evaluation and Serial Neurological Assessment in Minor Stroke and Rapidly Improving Stroke

SUSAN S. SPENCER CLINICAL RESEARCH TRAINING FELLOWSHIP IN EPILEPSY

Cosponsored by the American Brain Foundation, American Epilepsy Society, and the Epilepsy Foundation

Robert Kotloski, MD, PhD

UNIVERSITY OF WISCONSIN-MADISON, MADISON, WI

Epileptogenesis After Traumatic Brain Injury

CLINICIAN-SCIENTIST DEVELOPMENT AWARD IN MULTIPLE SCLEROSIS

Cosponsored by the American Brain Foundation and the National MS Society

Riley Bove, MD

BRIGHAM AND WOMEN'S HOSPITAL, BOSTON, MA

Investigation of the Role of Androgens

2013 ANNUAL MEETING MINORITY SCHOLARS

Working with the American Academy of Neurology (AAN) to help promote improved diversity in the neurology workforce, the Foundation awarded scholarships to the AAN's Annual Meeting to racial minority students from under-represented and underserved populations in good standing at a US medical school. These young students received complimentary registration, airfare, and lodging to attend the 65th AAN Annual Meeting in San Diego.

- Nworah Ayogu, MS3, Harvard Medical School, Boston, MA
- L. Nicolas Gonzalez Castro, MS3, Harvard Medical School, Boston, MA
- Alicia Fernanda Henriquez, MS3, Temple University School of Medicine, Philadelphia, PA
- Thomas Hughes, Jr., MS2, University of Miami Miller School of Medicine, Miami, FL
- Armina Omole, MS3/MSTP8, Medical University of South Carolina, Charleston, SC
- Clifford Andre Pierre, CC3, University of Rochester Medical Center, Rochester, NY
- Amanda Sandoval, MS2, University of Southern California Keck School of Medicine, Los Angeles, CA
- Blanca Valdovinos, University of Rochester Medical Center, Rochester, NY

FUNDING

CORPORATE ROUNDTABLE

Membership in the Corporate Roundtable (CRT) provides an opportunity for the medical industry to share vision, intellect, and financial resources with the neurology community in a cost-effective and productive manner. CRT resources have been used to support research programs and to expand the American Brain Foundation's clinical research training fellowships.

GIFTS

In 2013, 3,241 donors supported the American Brain Foundation's initiatives with 3,712 gifts. The Foundation raised $3.414 million from grants and gifts, for a grand total of $4.704 million.

Contributors received encouragement from a $3 million anonymous matching gift. To be included in this matching gift program, donations must be received July 1, 2013, through June 30, 2015.

CORPORATE ROUNDTABLE MEMBERS

AbbVie, Inc.

Acorda Therapeutics, Inc.

Actavis

Allergan, Inc.

Amgen, Inc.

Biogen Idec

Boehringer Ingelheim Pharmaceuticals, Inc.

EMD Serono, Inc.

Eisai Inc.

Eli Lilly and Company

Genzyme, a Sanofi company

IMPAX Pharmaceuticals

Ipsen Biopharmaceuticals

Lundbeck

Mallinckrodt Pharmaceuticals

Medtronic, Inc.

Merck

Merz Pharmaceuticals, LLC

Novartis Pharmaceuticals Corporation

Pfizer Inc

Purdue Pharma L.P.

Sunovion Pharmaceuticals Inc.

Supernus Pharmaceuticals, Inc.

TEVA CNS

UCB, Inc.

Upsher-Smith Laboratories, Inc.

FINANCIAL HIGHLIGHTS*

EXPENSES & REVENUE

SPECIAL THANKS TO OUR

DONORS

The American Brain Foundation thanks these individuals, corporations, and foundations who generously contributed in 2013 to help further our mission of finding a cure for brain disease.

LIFETIME

Recognition of corporations and foundations with lifetime giving of $1 million and above, and individuals and family foundations with lifetime giving of $500,000 and above.

- American Academy of Neurology Institute
- Potamkin Family
- Richard P. Essey
- TEVA CNS

LEGACY

Recognition of revocable and irrevocable planned gifts.

- Ralph F. Józefowicz, MD, FAAN

$500,000 AND ABOVE
